

WE are **YOUR** community health connection!

For families and friends affected by someone's drug and alcohol use.

Is someone you care about using alcohol and/or other drugs?

Are you supporting a family member who has an alcohol or other drug issue?

Would you like an opportunity to connect with other family members and share your story, as well as gain information, resources and strategies?

Primary Care Connects Family Drug Support Program provides a safe, non-judgmental, confidential space for family members impacted by a loved one's substance use, and will provide education, support and coping strategies.

*We gain knowledge from the Three 'C's' concept:  
We did not CAUSE it. We cannot CURE it. We cannot CONTROL it.*

## How to access Family Drug Support
