

NSP Program

Needle Syringe Program

WE are **YOUR** community health connection!

Primary Care Connects Needle Syringe Program (NSP), is a confidential, welcoming and non-judgemental service available to the whole community.

Our qualified team provide education on safe injecting procedures and blood born virus prevention, can provide safe and hygienic syringes free of charge including for diabetes management, and can provide safe disposal containers for disposal of used sharps.

Our aim is to provide harm minimisation making it safer for clients and the wider community. This program also acts as a bridge to connecting clients in with other services.

We offer free sterile equipment used for injecting including:

- Needles
- Syringes
- Sharps containers
- Condoms
- Water for injecting
- Naloxone
- Alcohol swabs
- Personal hygiene products
- Lubricant

FOR MORE INFORMATION

The NSP Program is a free, walk in service, or you can call Primary Care Connect on (03) 5823 3200 for more information.
